

Silicone Heater Hose

- **Extruded heater hoses** meet or exceed the requirements of the SAE J20 R3 Class A specification
- **Silicone hoses** are reinforced with polyester fabric
- **Aramid fiber reinforcement** is available for high temperature applications up to +500°F
- Resistant to coolant solutions, cold leaks, cracking, peeling, aging and ozone
- **CAC hoses** are available in straight, shaped, stepped and convoluted forms.
- **Convoluted forms** are the most commonly used and provide excellent performance and economy.

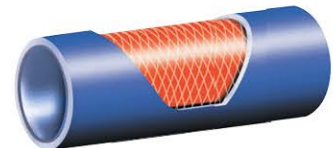

Applications

- Standard equipment on trucks, cars and buses
- Not recommended for fuel or oil transfer use.

Available in:

- 1-Ply
- 2-Ply
- 3-Ply
- 4-Ply

Hose Clamps

- **Constant Tension Hose Clamp** designed to maintain a constant pressure and torque
- **Incorporates a bespoke bolt** and a series of conical washers ensure stable performance and torque under all conditions
- **Heavy-duty Applications** ideal for combustion engines, tractors, trucks and heavy equipment where reliability and strength are critical
- **Protection and Durability:** The bevelled edges of the band prevent damage to hoses and provide a firm, durable hold
